

IBSA VI International Classifiers

Classification at world and regional level may only be conducted by “VI International Classifiers”.

IBSA is fortunate to have at its disposal a pool of expert “VI International Classifiers”, all of whom have been certified jointly by IBSA and IPC. In order to become a “VI International Classifier”, potential classifiers (either ophthalmologist or optometrist) must graduate from a classifier certification course approved by IBSA and IPC.

Certified VI International Classifiers as of January 2017:
